Course Requirements and Teaching Strategies

A typical week will consist of an online audio lecture, discussions, and assigned homework problems and, for most weeks, a timed quiz. Homework will need to be submitted by the end of each week. Please submit your homework timely. It is important that you keep up with the material.

- **Chapter Readings** To be successful in achieving the course objectives it is imperative that you do all assignments (readings and homework) timely. It is difficult to "catch up" if you fall behind in the material.
- Discussion Activities There will be one graded discussion for each week. You are required to post your first response no later than Wednesday of each week and a second post between Thursday and Sunday of each week. You are required to post at least two total responses during the week. There will be a deduction for not posting on the specified days. Discussion posts are graded for quantity, timeliness and quality.

	Students should refer to the College Catalog regarding student responsibilities. Indications of cheating will result in a zero for that item being graded, AND referral to the Business Division Dean and vice-president of Student Services for appropriate disciplinary action. Rudeness or other inappropriate behavior will not be tolerated.
<u>Homework</u>	All homework assignments are in the textbook at the end of the chapters. Please submit homework in Excel or Word. Late homework assignments will not be worth full credit.
<u>Quizzes</u>	There are quizzes each week beginning in Week 2. Quizzes are multiple-choice questions and must be taken by Sunday of the week in which they are assigned. See Topic Outline for the week each quiz will be given.
<u>Final Exam</u>	The final exam will be during Week 11 and is comprehensive. There are 50 multiple- choice questions worth 2 points each. You can enter the final exam only one time. Please click on the "Submit all and finish" button when your exam is complete.
